

Electronics Manufacturing Services Worldwide

Truly local. Truly global.

How much will 60 years of EMS experience improve your business?

For more than half a century, GPV has been committed to the field of EMS - manufacturing high-quality products and helping our customers grow and reach their business goals.

About GPV

GPV is Europe's second-largest EMS manufacturer with a total of 19 production sites across Asia, Europe and the Americas.

We specialise in high-mix EMS and deliver complex electronics, in-house mechanics and cable-harness, mechatronics, and box-build solutions including ODM design & engineering as well as test development services to customers worldwide.

Besides dedicated competencies within electronics and mechatronics production, we offer strong logistics capabilities, ensuring on-time delivery across the globe.

GPV employs approximately 7,500 dedicated people around the world, and we service customers in the fields of Industrials, BuildingTech, Measurement & Control, CleanTech, Transportation, MedTech and HighTech Consumer.

We enable our customers to 'Accomplish More' through decades of industry know-how and our customer-centric business approach. Service excellence is at the heart of our business to ensure value creation in every aspect of our customer relations.

In addition to our core services, we offer:

- > Global best-cost country setup and economies of scale.
- > Full life-cycle management under TCO perspectives.
- > Expertise in small to medium volume orders.
- > Uncompromising quality and on-time delivery.

The hardware of the digital world

From ambition to real products

A unique customer perspective

GPV is committed to ensuring that our customers accomplish more. We do this by building strong partnerships based on responsible and honest co-operation.

We acquire comprehensive insights into our customers' needs and industry, and we manage advanced product processing, relying on our strong technological know-how.

Capable. Accessible. Stable.

In all that we do, we focus on creating value for our customers and our approach embodies the spirit of the entire organisation. As such, we always strive for a timely delivery of faultless, secure, and functional products and services that fulfill the expectations and requirements of our customers.

We strive to be the most value-adding and accessible European EMS partner and help our customers accomplish more - as companies and as people.
